** Il pezzo speciale ha inserti in metallo, quindi si raccomanda di pulire immediatamente l'eccesso di colla sulla parte in vista con acqua ed una spugna morbida. È sconsigliato l'uso in zone salmastre a forte concentrazione di atmosfere saline perchè soggetto a formazione di ruggine. Consigliamo anche di non utilizzare in condizioni di immersione continuativa.

The special trim has metal inserts, and therefore you are advised to clean off any excess glue from the parts on view with water and a soft sponge immediately. Do not use in brackish areas with high saline concentrations in the atmosphere, as such conditions may cause it to rust. Do not use in conditions of continuous immersion / Специальный элемент имеет металлические вставки, поэтому рекомендуем немедленно удалить излишки клея со внешней стороны с помощью воды и мягкой губки. Не рекомендуется использование в местах с высокой концентрацией солей в атмосфере, поскольку плитка подвержена образованию ржавчины. Рекомендуем также не использовать в условиях постоянного погружения.
